**REPLY TO NOTICE UNDER 37 CFR SECTION 1.251**

This replies to the recent Notice from the Patent Office that the application file cannot be located. Enclosed is a copy of applicant's record of all the correspondence between applicant and the Patent Office, and a list of the correspondence is attached. Applicant is not aware of any correspondence between the Patent Office and applicant that is not among these enclosed records.

Applicant requests that the file be immediately reconstructed. Further, since the abandonment and subsequent delay is not the fault of applicant or its attorney, it is requested that no term adjustment be applied to shorten the term of this patent for the period of abandonment.

Applicant requests that the grant of revival finally be acted upon and the previously filed RCE should be processed with an office action on the merits. Any fees required to process this document may be charged to Deposit Account 04-0500.

Respectfully requested,
